

Sophisticated design

New design with silver x black plastic surface.

High-Performance

Install Mitsubishi GM82 Smallest and Lightweight Engine in the world.

High-Technology

Advanced technology provide less Air Pollution and High output.

Compact

Lightweight by its Original design and New material.

Long-Running

Provides outstanding fuel efficiency and long continuous operating hours by advanced OHV Engine and large capacity fuel tank.

SPECIFICATIONS

Model	SGE1001M	
Generator		
AC Frequency	50Hz	60Hz
AC Output Voltage	220,230V	110,120V
Maximum AC Output	850VA	1000VA
Rated AC Output	750VA	900VA
DC Output	12V-8.3A	
Voltage Regulator	Condenser Type	
Engine		
Model	Mitsubishi GM82	
Type	Air-Cooled,4Cycle,OHV Gasoline Engine	
Displacement	80cc	
Maximum Power Output	2.4ps/4000rpm	
Other		
Fuel Tank Capacity	4.5L	
Continuous Operating Hour	7.4hr	6.0hr
Operating Noise Level(at7m)	60dB	63dB
Dimensions(L × W × H)	465 × 343 × 371	
Dry Weight	25kg	
AC Circuit Breaker	●	
DC Circuit Breaker	●	
Pilot Lamp	●	
Oil Alert System	●	
Recoil Protector	●
